

Messages

Republic of the Philippines
OFFICE OF THE PRESIDENT
Malacanan Palace

My warmest greetings and congratulations to the participants and organizers, Philippine Association of Extension Program Implementers, Inc. (PAEPI) and Aklan State University, as you hold your 2nd Biennial National Convention and as you celebrate your 20th Founding Anniversary.

We commend your dedication to guiding our educators, civil society, government agencies, and local government units by organizing conferences such as this and sharing with them the best practices in various disciplines. I trust that you will continue serving to the interest of the Filipino people. We wish for the continued fortitude of your institution and wisdom to your new set of officers.

Keeping in mind the support of such organizations as your group, I believe no challenge can be too great in our collective task to rebuild this nation. The journey on the straight and righteous path chosen by the Filipino people themselves will not be easy, but if we remain in solidarity, rallying to the clamor of change and reform, I believe no challenge can be too daunting to confront. In this opportunity for renewal, we will remain united as we establish a better government for our nation's future.

BENIGNO C. AQUINO III

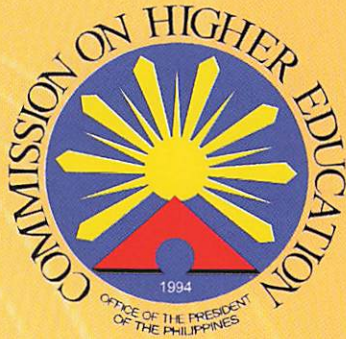

ACTING FLAG OFFICER IN COMMAND
PHILIPPINE NAVY
Jose V Francisco Naval Station
2335 Roxas Boulevard, Manila

On behalf of the men and women of the Philippine Navy, I commend the officers and staff of the Philippine Association of Extension Program Implementers, Inc (PAEPI) in worthy celebration of your 20th Founding Anniversary. Your Convention this year is a fitting testimony to your solid commitment to the ideals and objectives of your commendable association. Congratulations!

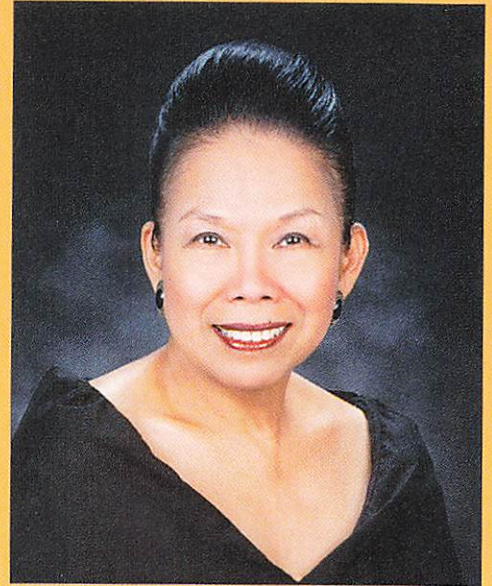

As the Acting Flag Officer In Command of the Philippine Navy, I take worthy note of your Association's notable undertakings for the past years. Especially laudable is your key purpose to empower people for sustainable development. By means of promoting the institutionalization of extension services implementation as a tool for management in the various sectors of our society, you serve as a true catalyst for development in our country and even in the Asia Pacific region and beyond. In more ways than one, in your every undertaking, what you do indeed positively impacts the society and the nation which we all love and serve.

With this, I wish the PAEPI, its officers, all members and supporters continued progress in all your good endeavors. Keep up the great work and more power!

RADM. DANILO M. CORTEZ AFP

Republic of the Philippines
Commission of Higher Education
Office of the Chairperson

The Commission on Higher Education (CHED) joins the Philippine Association of Extension Program Implementers and Aklan State University in welcoming the participants of the 2nd Biennial National Convention.

The convention theme, “Implementation of Research-Based Extension Program Towards the Attainment of Millennium Development Goals (MDGs) cum Advocacy on Magna Carta for Extension Service Workers,” is timely and relevant. It provides the opportunity to emphasize and appreciate the importance of extension as one of the three major functions of higher education institutions, along with teaching and research. Extension ensures that knowledge and technology generated by the university are utilized for the common good of the community.

It is not unusual for most Filipinos, even most academics, to think of our national hero Jose Rizal mainly as a scholar and martyr. We tend to forget that when he was in exile in Dapitan, he was able to bring about dramatic changes by serving the community. Jose Rizal was an effective extensionist. It is this little emphasized side of him that young Filipinos should emulate as well during these times of crisis and change in our country.

As I wish you the best for your convention, I also wish that it may serve as a milestone in the development of partnerships among extension stakeholders in the academe and various organizations as you share the best practices on the assessment of programs contributing to the attainment of the MDGs.

Congratulations and mabuhay!

PATRICIA B. LICUANAN, Ph.D.

Republic of the Philippines
Commission on Higher Education
Office of the Commissioner

It is a pleasure to greet the officers, members and participants of the Philippine Association of Extension Program Implementers (PAEPI) as they hold their 2nd Biennial Convention and 19th General Assembly (20th Anniversary) in partnership with Maritime Academy of Asia and the Pacific and Aklan State University as co-organizer and host on December 8-11, 2010.

This year's theme, "Implementation of Research-Based Extension Program Towards Attainment of MDGs cum Policy Advocacy on Magna Carta For Extension Workers" signifies the positive view point of our extension service implementers in innovating and uplifting the implementation of extension services. It has been recognized that higher education research is a crucial sector in socio-economic development and prosperity. It also plays an important role on the scientific, technological, economic, social and cultural development of every country.

I wish to commend Dr. Angelica M. Baylon, the President of PAEPI for her laudable accomplishments as PAEPI President. It is also commendable that Dr. Baylon and her institution MAAP was awarded with the "William Medrano Best Research and Development Management Paper Award" during the 20th Philippine Association of Research Managers (PhilARM) Convention and General Assembly hosted by Aklan State University last April of this year, when she was also elected as North Luzon Cluster Chair representative for PhilARM.

It is with pride and honor, that I extend my congratulations to all the members, organizers and participants of PAEPI, especially to the officers and Board of Directors. I am grateful that you have pursued various significant projects and activities particularly in sharing research-based extension services, best programs and practices among various higher educational institutions in this convention. This exercise will leave a great mark in the history of higher education.

Once again, congratulations and more power!

WILLIAM C. MEDRANO, Ph.D

Republic of the Philippines
Commission of Higher Education
Office of Programs and Standards

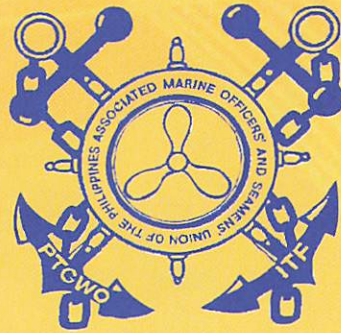

Congratulations to PAEPI on your 20th Anniversary ! It is remarkable that PAEPI is able to sustain itself all these 20 years . It has become truly a national professional association for extensionists with members coming from the academe, private sectors, government and non-government organizations nationwide. I also convey my warmest greetings to the guests , participants and organizers of this 2nd Biennial National Convention in cooperation , coordination and collaboration with the Aklan State University leadership, thru its good and able ASU President Dr. Benny Palma as host.

The convention theme conveys the continuous commitment of PAEPI to support extension programs, projects, activities and advocacies for the extensionists nationwide. In various regions for instance, wherein I served as the Regional Director for the past 5 ½ years, I have been a witness to the dedication and dynamism of PAEPI. PAEPI with its members with varied disciplines, has been a partner of the government and CHED in a number of educational activities, training and technical assistance in various disciplines. In May 2009, during the PAEPI National Strategic Planning Activity hosted by MAAP, wherein I served as the guest of honor and keynote speaker, I am again a witness on the enthusiasm of the PAEPI leadership in coming up with a National Extension Agenda and Strategic Action Plan beneficial for the extension sector in the country. Today's convention also marks the 19th General Assembly, the day of reporting to the PAEPI general membership, the accomplishment of those plans.

My congratulations to the PAEPI leadership, the officers , the board of directors particularly its National PAEPI President Dr. Angelica M Baylon, for her untiring effort, perseverance and exceptional leadership. From the time I was the regional director (CHEDRO III) until my transfer to CHED, Office of Program and Standards, all the PAEPI plans (both regional and national) as well as its accomplished activities and resolutions are reported to CHED along with MAAP accomplishment reports on research and extension services. That initiative of Dr. Baylon is highly commendable and must be emulated. I am certain that thru the proper documentation of all the plans and accomplishments of PAEPI, the PAEPI programs and standards would be properly implemented, reviewed and evaluated by all concerned. My best wishes to all of you. God Bless us all!

FELIZARDO Y. FRANCISCO, Ed.D., CESO III *(Original Signed)*
Director IV

Office of the President

Associated Marine Officers and Seamen's Union of the Philippines
Intramuros, Manila

My warmest greetings to the Philippine Association of Extension Program Implementers, Inc (PAEPI) and the Maritime Academy of Asia and the Pacific, co-organized and hosted by the Aklan State University (ASU) as you conduct the 2nd Biennial Convention and General Assembly on the occasion of the 20th Anniversary at ASU in Banga Aklan on 8-11 December, 2010 under the theme "Implementation of Research-Based Extension Program Towards Attainment of MDGS cum Policy Advocacy on Magna Carta For Extension Workers"

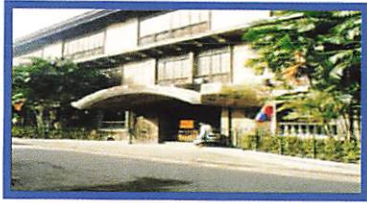

It is inspiring to note that since 1990, PAEPI has been pursuing the mission of promoting extension work as a strong force in individual and social transformation primarily through educational institutions and in other government and non-government institutions in the Philippines in accordance with national, regional and local development thrusts, issues and concerns. As a key player in people empowerment for sustainable development, PAEPI can serve as a role model of what a multi-sectoral group can do to support the Aquino Administration's fight against poverty in terms of a direct pro-poor intervention delivery of a research-based extension programs towards the accomplishment of the Millennium Development Goals (MDGs) to reduce if not totally eliminate poverty.

AMOSUP, known in championing the rights of the Filipino seafarers and in ensuring that the Philippines maintain its global reputation as the number one supplier of competent and qualified seafarers, is one with PAEPI as it continuous to champion the rights of the extension services workers through policy advocacy on Magna Carta for Extension Services Workers and in elevating and upgrading the quality of extension work to a level of discipline and in harnessing the capabilities and professionalism of our extension program implementers towards attainment of MDGs thru people empowerment for sustainability.

I also congratulate, our very own Dr. Angelica M Baylon, the MAAP Research and Extension Services Director as the 5th President of PAEPI, for her initiatives and productive services in MAAP and PAEPI. On behalf of AMSOSUP, we are glad to support PAEPI in anyway we can. I wish PAEPI a successful convention as we continue to either individually and/or jointly work together towards accomplishing the MDGs for a more prosperous Philippines.

Office of the President

Maritime Academy of Asia and the Pacific
Kamaya Pt., Brgy. Alas-asin, Mariveles, Bataan

An idea is not worth much until a person who has the energy and ability to make it happen is found. On behalf of the Maritime Academy of Asia and the Pacific, I wish to express my commendations, for the dedication and hardwork of Dr. Angelica M. Baylon, our Research and Extension Services Director and the National PAEPI President, who with the PAEPI Board of Directors, officers, Convention Committees and many supporters, have put together all ideas to come up with the initial PAEPI Biennial Publications cum Souvenir Programme with ISSN number, documenting herein the relevant information, various initiatives, policies, guidelines, criteria and standards, comprehensive program and a lot more.

As a blue print, it would certainly provide the guideposts and springboards for redefinition, for further exploration and development of innovative strategies. Indeed, the formulation of this publication is a propitious start in the arduous path towards ensuring that the PAEPI's VMGO is carried out successfully into the 21st century through various programs and projects needed for the accomplishment of the PAEPI Strategic Framework 2009-2020.

My warmest greetings to all guests and participants of the PAEPI Biennial Convention and 19th General Assembly on December 8-11, 2010, as you celebrate your 20th Anniversary. My sincerest congratulations also go to this year's host, the Aklan State University (ASU), to the Convention Committee leaders ably by VP Dr. Roberto Saladar and Director Dr. Anna Mae Relingo, to the energetic ASU President Dr. Benny Palma and local leaders for hosting this worthwhile event. Your graciousness and hospitality will enliven the activities of the event as all delegates anticipate your warmth and congeniality. The theme "Implementation of Research -Based Extension Services Programs Towards the Accomplishment of MDGs cum Policy Advocacy of Magna Carta for Extension Services Workers" reflects your commitment, not only in elevating the implementation of extension services program thru research for the accomplishment of MDGs but more so uplift and protect the conditions of the extension workers thru a Magna Carta.

To the delegates, take this opportunity to actively participate in the plenary and parallel discussions and fellowship activities, create new friends, renew friendships with previous acquaintances and broaden your horizons with an increased understanding of what true PAEPI service means. Aspire to bring the best in each and everyone and emerge renewed and invigorated from this convention. Have fun, learn more and support one another.

I wish you all an enjoyable, productive and meaningful PAEPI Biennial Convention and General Assembly!

VADM EDUARDO MA R. SANTOS, AFP (RET)

MAAP Profile

Geographic destiny has given the Filipino the innate talent to be an excellent seafarer. To enhance this natural skill, the Maritime Academy of Asia and the Pacific (MAAP) was established on January 14, 1998. The Academy stands on an 11-hectare property in Kamaya Point, Mariveles, Bataan.

The Associated Marine Officers' and Seamen's Union of the Philippines (AMOSUP) capitalized and developed the Academy. The AMOSUP President, Capt. Gregorio S. Oca, heads the Academy's board of governors. The board is comprised of representatives from the private sector, the Filipino Association for Mariners' Employment, the International Transport Workers Federation, the All Japan Seamen's Union, the International Maritime Employers Council, the Danish Shipowners Association, the Norwegian Shipowners Association, and the Japanese Shipowners Association.

MAAP conducts shipboard training at T/S Kapitan Felix Oca, a 5020 DWT dedicated training ship capable of accommodating 180 midshipmen and 9 instructors with 30 air-conditioned cabins and six berths.

Our Curricula

MAAP students are all scholars who are entitled to free tuition, board and lodging. They receive a comprehensive, up-to-date and well-rounded education that fully complies with the requirements of STCW 95 and the Commission on Higher Education (CHED). To ensure the highest standards of quality, MAAP adheres to a Quality Standards System that has been certified to comply with ISO 9001, the Det Norske Veritas (DNV) Rules for Marine Academies, and the Productivity and Standard Board (PSB).

The Academy offers three main programs: the Bachelor of Science in Marine Transportation (BSMT), Bachelor of Science in Marine Engineering (BSMarE) and the Bachelor of Science in Marine Transportation and Engineering (BSMTE). The curricula for the three courses are designed by the United States Merchant Marine Academy at Kings Point, New York. Courses are four-year courses with sea phases scheduled in the third year.

The BSMT curriculum requires a total of 197 units: 157 at MAAP, 40 practicum/shipboard units on board T/S Kapitan Felix Oca and/or a sponsoring company ship.

Courses Offered:

- BSMT - Bachelor of Science in Marine Transportation
- BSMarE - Bachelor of Science in Marine Engineering
- BSMTE - Bachelor of Science in Marine Transportation and Engineering

and Shipmanagers, Inc.

On behalf of the members of PAMAS-INTERMAP, I congratulate the officers, members, participants and guests of the 2nd PAEPI Biennial Convention and 19th General Assembly on the occasion of its 20th Anniversary, organized and hosted by the Aklan State University (ASU) in Banga Aklan and co-organized by the Maritime Academy of Asia and the Pacific (MAAP) on December 8-11, 2010.

Your convention theme “Implementation of Research-Based Extension Services Programs Towards Attainment of MDG cum Policy Advocacy of Magna Carta for Extension Services Workers”, reflects the desire of PAEPI, to include research as part of their advocacy in creating innovative means of enhancing the implementation of the extension services program in the country hence contribute to the accomplishment of the MDGs for sustainability. It is notable that part of the PAEPI programme of activities are presentation of research-based extension program and practices among its members on four development areas of concern: Socio-welfare, Socio-economic, Environmental and Infrastructure or Technological and to possibly recognize them based on PAEPI set of criteria and standards. Equally remarkable is the PAEPI advocacy for the welfare of their members thru the Magna Carta for extension workers by which the theme conveys. PAMAS supports PAEPI as we are one in the creation of policies based on research in the gathering of actual data on the sentiments of members thru general assembly, conferences, trainings and surveys as basis for policy advocacies.

PAMAS wishes PAEPI, a productive, enjoyable and a rewarding Convention! Keep up the good work!

Building strong bonds with seafarers and principals

The 30s are a considerable milestone, it is usually the time when we attain emotional maturity, stability and self-confidence.

At the same time, it also represents a period of transition, the coming to life of new ideas, and the pursuit of advancement and success.

In the same light, Naess Shipping Philippines (NSP), Inc. as it reaches its 30th year in 2010, henceforth launches a new visual identity depicting the reason behind its success, that is the company's (NAESS) strong bond (chain) with its seafarers (S) and principals (P).

"Our aim is for Total Principal Satisfaction."

Office of the President
Filipino Association for Mariner's Employment

On behalf of the Filipino Association for Mariners' Employment Inc. (FAME) with 117 members, I would like to extend my congratulations to the organizers, guests and participants of the PAEPI's 2nd Biennial Convention and 19th General Assembly on your 20th Anniversary, organized and hosted by Aklan State University in their campus at Banga, Aklan and co-organized by MAAP and PAEPI.

Similarly, my commendations to the Maritime Academy of Asia and the Pacific (MAAP) led by its visionary President, VADM Eduardo Ma R Santos whose institution, aside from making waves in the maritime education and training (MET), is also at the forefront in research and extension services, thru its dynamic and competent Director Dr. Angelica M. Baylon, the National President of PAEPI.

The theme of the Convention in essence, expresses the commitment of PAEPI, in promoting the importance of research, in improving the extension services program implementation and in contributing its share to attain the Millennium Development Goals (MDGs) in the country and its notable advocacy on the Magna Carta for extension services workers.

FAME is one with PAEPI, as we recognize the importance of research to come up with workable and objective programs and to ensure that the services we provide are what the maritime community needs in order to contribute to the attainment of MDGs needed for sustainability and nation building.

The PAEPI's twenty years of existence properly deserves recognition. On FAME's behalf, I extend my warmest greetings to the PAEPI leadership for creating a remarkable dent in the history of extension services initiatives and activities, particularly in your policy advocacy for the welfare of the extension services workers in the country! I enjoin the members of FAME to support PAEPI on your publication project and other noble endeavors. May our good Lord bless your professional association more!

Office of the President

Philippine Merchant Marine Academy
Alumni Association, Inc.
3/F Marlow Navigation Training Center,
Bldg. 2120 Leon Guinto St., Malate, Manila

On behalf of the thousand alumnus of the Philippine Merchant Marine Academy Alumni Association (PMMAI) that I greet the Philippine Association of Extension Program Implementers, Inc (PAEPI) on your 20th Anniversary and for the holding of the 2nd Biennial Convention and 19th General Assembly on December 8-11, 2010 with Aklan State University as host in Banga Aklan.

Organizing this Convention with theme “Implementation of Research-Based Extension Program Towards Attainment of MDGS Cum Policy Advocacy on Magna Carta For Extension Workers “ is indeed a truly laudable effort that deserves everyone’s recognition and support. Towards this end, the PMMA Alumni Association supports and acknowledges the relevance of research in the preparation of programs as extension to ensure that its implementation would really address the needs of the community and thus contribute it share on MDGs accomplishment to lessen if not totally eliminate poverty.

The PMMA Alumni Association supports PAEPI, a professional association of extensionists with proven track records on capability building, research, consultancy, special projects, publications and policy advocacies, as we share common interest in taking care of the welfare our fellowmen thru conduct of training activities and policy advocacies.

Mabuhay to the organizers (PAEPI-MAAP-ASU) of this convention and to its host Aklan State University! We wish PAEPI the success in all its notable endeavors particularly to its President Dr Angelica M Baylon, a PMMAI alumnus (2002 outstanding Master in Shipping Business Management graduate of PMMA)!

To you all, Anchors a –weigh! And sails on!

Office of the President

Philippine Association of Maritime Training Centers, Inc.

My warmest felicitations to the board of directors, officers and members of the Philippine Association of Extension Program Implementers, Inc (PAEPI) led by its PAEPI President and my good friend, Dr Angelica M Baylon, Research and Extension Services Director of the Maritime Academy of Asia and the Pacific (MAAP), on the occasion of their 20th Founding Anniversary and 2nd Biennial Convention and General Assembly at the Aklan State University, Banga, Aklan on 8-11, December 2010.

As the only non-stock, non-profit professional organization of extensionists in the country (representing Higher Educational Institutions, Government Organizations, Non-government Organizations and Local Government units) with members coming from all over the country nationwide and with various expertise and disciplines, PAEPI undoubtedly plays an important role in ensuring that its members, the extension services program implementers are capable and competent to meet the global challenges in the 21st Century.

Certainly, through your theme "Implementation of Research –Based Extension Services Implementation towards Attainment of MDGs cum Policy Advocacy on Magna Carta for Extension Services Workers" PAEPI will continuously raise standards of extensionists thru implementation of a research-based extension programs and contribute their share in the accomplishment of the Millennium Development Goals (MDGs) to end poverty in 2015.

Although not mandated by the Maritime Training Council, the Philippine Association of Maritime Training Centers Inc (PAMTCI) also conducts extension services in the form of capability building, community outreach activities, coastal clean-up special studies and research, consultancy services, special projects and policy advocacies either as individual members or collectively as PAMTCI, and therefore, joins PAEPI in their noble intentions to empower people for sustainable development!

Once again congratulations and more power to PAEPI !

Office of the President
Philippine Association of Maritime Institutions

On behalf of the Philippine Association of Maritime Institutions (PAMI) with a total strength of 73 member accredited maritime universities and colleges representing Visayas, Mindanao and Luzon, I extend my warmest greetings and best wishes to the officers, members, participants and guests of the 2nd PAEPI Biennial Convention and General Assembly on the occasion of their 20th Anniversary, hosted by Aklan State University at their campus in Banga Aklan on December 8-11, 2010.

The theme "Implementation of Research –Based Extension Services Programs Towards the Accomplishment of MDGs cum Policy Advocacy of Magna Carta for Extension Services Workers" is timely and reflective of a well-thought pathway to excellence, with concern for the welfare of estensionists. It is noteworthy that PAEPI has been instrumental in organizing conferences, seminars, training courses, workshops and research trainings as part of the effort in professionalizing extension services implementers in the country that would further enhance professionally its implementation and thus performing two of the mandated functions by the Commission on Higher Education in addition to instruction.

PAMI recognizes the efforts of PAEPI and encourages our member maritime institutions to support PAEPI. Extension Directors of member institutions are enjoined to participate in PAEPI activities so that the extension initiatives of the maritime institutions may be documented, presented, shared and possibly be recognized by an accredited professional association of extension program implementers as PAEPI. PAMI wishes to strengthen its ties with PAEPI and is very much willing to cooperate on extension services initiatives based on common goals, interest and objectives. Certainly, PAMI-PAEPI cooperation will steer directly or indirectly the quality of maritime education and training (MET) in the Philippines thru implementation of a research-based extension services program for the attainment of MDGs.

Congratulations to PAEPI especially to its President Dr Angelica M Baylon, a pride of MAAP in terms of research and extension. It must be noted that in December 2008 during my term as PAMI President, MAAP won the PAMI Search for the Best MET Research Practices held at the University of Cebu during its 37th Convention and General Assembly and had represented PAMI in the Asia MET Summit held at Longemont Hotel in Shanghai China in March 2009. It is evident that MAAP, one of the most active institutional members and supporters of PAMI, competently being led by its President Vadm Eduardo Ma R Santos, AFP (Ret) is at the forefront and making waves, not only in MET and research, but also in extension services.

Wishing PAEPI a success in the 4-day activities and fruitful future endeavors!

On behalf of the Philippine Association of Institutions for Research (PAIR) with 50 member institutions and 600 individual members, I am pleased to congratulate the PAEPI BODs, officers, members, participants and guests of the 2nd PAEPI Biennial Convention and 19th General Assembly on the occasion of their 20th Anniversary, hosted by Aklan State University at their campus in Banga Aklan on December 8-11, 2010.

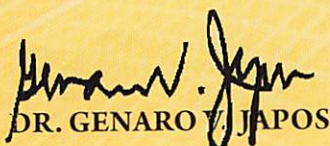

The theme “Implementation of Research-Based Extension Services Programs Towards the Accomplishment of MDGs cum Policy Advocacy of Magna Carta for Extension Services Workers” with Dr. Roberto Padua, an international research awardee and former CHED Commissioner as one of the guest of honor and speaker is indeed a brilliant idea!

It is notable that PAEPI, a professional organization for extension services workers had included research as part of their advocacy in creating innovative means of enhancing the implementation of the extension services program in the country Equally remarkable is the PAEPI advocacy for the welfare of their members thru the Magna Carta for extension workers by which the theme conveys the message clearly to the participants.

PAIR admires the efforts of PAEPI and wishes to tie up with PAEPI soon thru joint endeavors based on common concerns and objectives beneficial for our member institutions. Certainly, a PAIR-PAEPI collaboration would intensify the programs, projects and activities considering that research and extension services goes hand in hand to ensure that the research output or activity would have impact through implementation, knowledge transfer, community benefit and legal implications as factors which may be realized through extension services.

Dr Baylon is very much aware of these research impact factors as she was a recipient of the “International Roberto Padua Research Impact Award” for her paper (out of 238 paper entries) during the International Research Conference held in Vigan Philippines hosted by the University of Northern Philippines in April 2010. She was also awarded a National Research Leadership Award during a National Conference on Quality Assurance on International Research publications, held at the Our Lady of Fatima University in July 2010. Hence, PAIR nominated her the 2010 Outstanding Woman in Nation Service and she was part of the top 11 shortlisted finalist nationwide.

Cheers to Dr. Angelica M Baylon, for her leadership not only in research but also in extension services as the PAEPI President!

Office of the President
Bataan Coastal Care Foundation, Inc.
c/o Petron Foundation, Inc.

On behalf of the Bataan Coastal Care Foundation, Inc., and Petron Foundation, Inc., I would like to extend my sincerest greetings to the officers and members of the Philippine Association of Extension Program Implementers, Inc. (PAEPI) and congratulations on your 20th Founding Anniversary, which is being celebrated as part of PAEPI's 2nd Biennial National Convention.

At the heart of PAEPI's many noble objectives as an organization, and most notably for this Convention, is the attainment of the United Nations Millennium Development Goals (MDGs). We laud PAEPI's continuing efforts to contribute to meeting the MDGs, through your advocacy and implementation of research-based extension services programs.

We share in your commitment, specifically in the area of ensuring environmental sustainability. The public-partnership we embarked on with the Province of Bataan and the United Nations Development Programme gave birth to the Bataan Integrated Coastal Management Program in 2000 and provided us the opportunity to create new and better ways of managing our coastal and marine environment consistent, with our utilization of land-based resources, so that critical areas are preserved, and those sufficiently abundant are given their proper use. Thus, we are able to strike a harmonious balance between promoting development while sustaining our environment. To this end, we engaged the business community to join hands under the banner of the Bataan Coastal Care Foundation to ensure the success of the ICM program. We are very much pleased to acknowledge the active involvement of one of PAEPI's leading members, the Maritime Academy of Asia and the Pacific (MAAP), in this collective undertaking.

All these efforts lead us in the path towards sustainable development. This is a journey that we applaud PAEPI for taking, and we look forward to having opportunities to work with your organization in the future.

Again, congratulations to PAEPI and best wishes on its 20th Founding Anniversary!

Marilou G. Erni

You Fuel Their Hopes.

One in four children in the country is unable to avail of even free elementary education due to lack of resources. Poverty remains their biggest obstacle for learning and the chance to enjoy a better tomorrow.

Thanks to your continued support, TULONG ARAL enables more than 6,000 less privileged children to complete elementary schooling and 300 to go through high school, giving them a reason to hope for a better future. The gift of education provides full scholarship, health and literacy programs for the children, teachers' training and opportunities for livelihood for parents, all aimed at helping improve retention, comprehension and achievement.

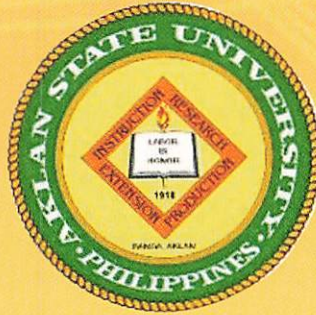

In partnership with the Department of Social Welfare and Development, Department of Education, World Vision Development Foundation, Land Bank of the Philippines and SM Retail

Aklan State University
Banga, Aklan

Congratulations to the Executive Officers, Consultants, Board of Directors and Members of the Philippine Association of Extension Program Implementers, Inc. (PAEPI) in the celebration of its 2nd Biennial National Convention (20th Founding Anniversary) on December 8 – 11, 2010.

The theme, “Implementation of Research-Based Extension Program Towards the Attainment of the Millennium Development Goals cum Advocacy on Magna Carta for Extension Service Workers,” relates to the University’s Vision as an “Academic Pillar of Excellence for Sustainable Development.”

The Aklan State University has been a strong partner of PAEPI as well as other institutions committed to effective and sustainable extension services delivery in the country. As such, the University is locally and internationally recognized for its achievements in agricultural extension, rural development and community services.

Toward the 21st century, I encourage all of you to envision, develop and innovate effective and sustainable extension strategies for the advancement of our stakeholders.

May all the activities be a success. Mabuhay kayong lahat!

BENNY A. PALMA, PhD
Officer-in-Charge

Congratulations and my warmest greetings to the people behind the Philippine Association of Extension Program Implementers, Inc. (PAEPI) for the success of 2nd PAEPI Biennial Conference 2010 and 20th Founding Anniversary.

With the theme “Implementation of Research-Based Extension Program towards Attainment of MDGS cum Advocacy on Magna Carta for Extension Service Workers,” the convention will give opportunity for the researchers, educators, and extensionists assist extension service workers in spreading out extension services in the country. Further, this convention will lead us to bridge the gap in giving extension services to the people from national to local and to help extensionists maximize resources in bringing services.

Thank you to the speakers and presenters, who actively give inspirations to our extension service implementers and to the organizers and host, our best wishes for the successful conference.

Office of the President

Technological University of the Philippines
Ayala Blvd., cor. San Marcelino St.,
Ermita, Manila

It is our distinct pride that the founding president of the Philippine Association of Extension Program Implementers, Inc. (PAEPI) is an alumnus and a former professor of the University – the late Dr. Cristeto P. Bonilla. I laud Dr. Bonilla’s initial efforts as well as that of his successors in promoting their institutional missions through worthy and beneficial extension projects.

As the Association celebrates its 20th founding anniversary with the conduct of its 2nd Biennial Convention on December 8-11, 2010, it is my fervent wish that the Association continue to flourish and its members remain steadfast in their commitment to provide quality extension services thereby becoming veritable agents of national progress and development. The convention’s theme “Implementation of Research-Based Extension Program Towards the Attainment of MDGS cum Advocacy on Magna Carta for Extension Workers” manifests the great initiative on the part of its present set of officers to make extension services attuned to the needs of the times. Noteworthy, too, is the current effort to look into the welfare and give due recognition to our untiring extensionists for their dedication and commitment.

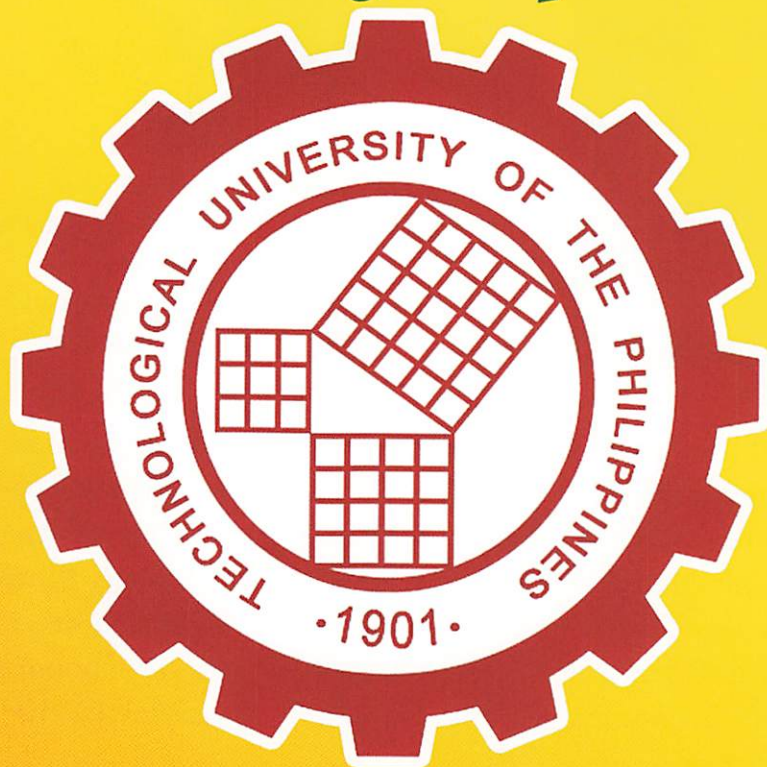

On behalf of the TUP community, I extend my warmest greetings and felicitations to PAEPI as it reaches a new milestone in its fruitful existence.

Mabuhay!

OLYMPIO V. CAPARAS, Ed. D.

Greetings from:

Office of the President

Philippine Association of Extension Program
Implementers, Inc.
c/o Maritime Academy of Asia and the
Pacific, Mariveles Bataan 2105

On behalf of the PAEPI Officers and Board of Directors, I would like to extend my heartfelt appreciation and commendations to our Convention host (Aklan State University) especially to President Benny Palma and his officers and staff, to my institution MAAP, admirably led by President VAdm Eduardo Ma R Santos, AFP (Ret.), the distinguished personalities for their warm greetings and congratulations, to the sponsors and friends, the national and local working committees, to the guests of honor and keynote speakers, Dr. Roberto S. Padua and Hon. Cong. Eulogio R. Magsaysay Jr., the PAEPI members, participants and guests.

This 20th PAEPI Convention with its theme “Implementation of Research-Based Extension Program Towards Attainment of MDGS cum Advocacy on Magna Carta for Extension Service Workers” was made possible because of the wholehearted involvement and vital combined efforts of each and everyone.

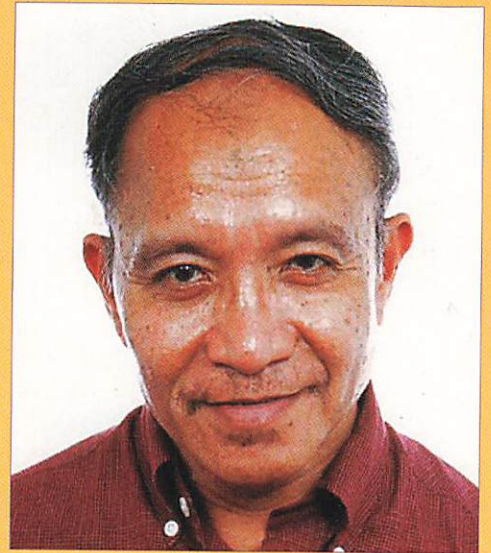

PAEPI on its 20th year, has continuously grown and its membership is growing in quantity and quality. Just like an orchestra, through unity, we are trying to achieve the greatest symphony! Our Association (PAEPI) is confident that we, the PAEPI officers and Board of Directors, have live up to the expectations of the members. Rest assured that we PAEPIans, whether as officers or as members, shall continue to serve as one of the catalysts for affecting a positive change for the betterment of the PAEPI community that we serve.. Thank you very much and God bless us all!

Angelica M. Baylon
ANGELICA M. BAYLON, Ph.D

Office of the Chairman

Philippine Association of Extension Program
Implementers, Inc.
c/o Maritime Academy of Asia and the
Pacific, Mariveles Bataan 2105

My warmest greetings to my colleagues of the Philippine Association of Extension Program Implementers, Inc. (PAEPI), and to all participants of the 2nd Biennial Convention held in the beautiful campus of Aklan State University (ASU). Let me also convey my sincerest thanks to the Honorable Guest of Honor and Keynote Speaker for gracing the occasion. I am especially grateful to the host institution, under the able leadership of Dr. Benny Palma as President. To all the officers and members of the Region VII PAEPI, we are privileged by the pleasure of your company. .

Since its founding 20 years ago, PAEPI has significantly contributed to the intellectual, social, moral, and cultural development of its members who participated meaningfully in the PAEPI development initiatives. Thus empowered, they soar with nobility, touching lives everywhere in love and service. Our wish is for PAEPI to be ever responsive to the needs of the community, our nation and the world. PAEPlans have continuously proven such competence, vigor, enthusiasm and dedication that we are confident PAEPI's vision to serve humankind will prevail.

Together let us work to promote this vision. Let us keep building bridges of goodwill and cooperation among social development stakeholders to advance the goals of extension education for development.' To all of us who become part of PAEPI history, let this assembly be a time for recollection and reflection, and for renewing our commitment to the pursuit of excellence service. On this 2nd Biennial of PAEPI, let us thank the Lord for having given us opportunities to serve our fellowmen unselfishly and well. All these we celebrate in thanksgiving..

To God be the glory!

NICHOL R. ELMAN, Ph.D (*Original Signed*)
