

PART 3. PAEPI REPORTS FOR THE GENERAL ASSEMBLY

Every PAEPI President –and that includes me–look forward to the PAEPI Convention and General Assembly, almost from the day elected to the position. The best team possible is formed in addition to the elected BODs, ... working long hard and smart to accomplish all goals set for the association- so that in the end, there would be a story to tell and be proud of.

Such is happening today in our 19th General Assembly. We had a very fruitful and blessed year for PAEPI. We have revitalized PAEPI in so many notable ways which form part of the comprehensive PAEPI Accomplishment report FY 2009-2010 embodied in this publication.

Our host the Aklan State University under the dynamic leadership of Dr. Benny Palma, left nothing to chance making sure that all delegates (including guests) will always remember this Convention as most meaningful and enjoyable.

On behalf of the PAEPI Executive Officers and PAEPI Board of Directors representing all regions in the country, we thank all those who made this 2nd Biennial Convention 2010 truly memorable... all the way from the distinguished guests, the local organizing Committee, the past PAEPI Presidents, the PAEPIans representing various regions, who came to show our moment of legacy and to our sponsors, donors and patrons, my heartfelt thanks!

We hope that everyone will carry sweet memories of PAEPI 2010 for a long long time!

1. Restoration of SEC Registration (Through legal assistance and personal expenditure, **SEC registration number 10059** was accomplished (c/o MAAP) on **July 1, 2009**)

Hence, the PAEPI BOD/officers with legal personality (SEC# 10059 dated July 1, 2009), were able to continue the PAEPI legacy of 20 years and had executed the PAEPI National Strategic Plans prepared by BOD /officers and approved by the PAEPI membership during the National Consultative Strategic Planning held at MAAP conference room on May 19-22, 2009 . We have achieved the PAEPI goals and objectives as documented beneficial to PAEPI membership

Based on the observed problems in terms of having overlooked the monitoring, documentation, submission of reports in the organization as the tasks by officers/members were purely voluntary in nature , hence, in my capacity as the incumbent PAEPI President (ex-officio as I will turn the responsibility to the next elected President) with concern and passion to contribute its humble share in continuously uplift the PAEPI, the following resolutions (which forms part of the proposed amended PAEPI constitution and by- laws) are hereby proposed for approval by the General Assembly

For financial management, reporting and proper auditing procedures and reporting at SEC, a resolution is hereby proposed:

Res. No. 14 Series 2010	<ul style="list-style-type: none"> ◆ RESOLVED that PAEPI create a National Treasurer responsible for the financial report and control of the National PAEPI receipts and submission of report to SEC duly audited by external auditor accredited by BIR in a timely manner ◆ Resolved further that BPSU c/o Office of Extension Services be the national treasurer for its continuity and social responsibility of extending good services to PAEPI ◆ RESOLVED finally that PAEPI shall be responsible for whatever expenses incurred as only services, manpower and facilities are shared within BPSU premises as part of its social responsibility and goodwill to PAEPI

For the efforts provided by the various institutions in volunteering capacity in preserving the integrity and credibility of PAEPI and its memberships, a resolution is hereby proposed:

Res. No. 15 Series 2010	RESOLVED that PAEPI webpage and PAEPI stationery, shall bear five logos namely the PAEPI logo, Institutional logo of the newly elected PAEPI President AY 2010-2012, the TUP logo as PAEPI founding and pioneer member institution since the establishment of PAEPI in 1990, MAAP logo, as the PAEPI National secretariat and the BPSU logo, as the PAEPI national treasurer.
------------------------------------	--

Part 3. PAEPI Reports

Pursuant to the implementation of the PAEPI National Extension Agenda (PAEPI- NEA) 2009-2010 with the forged MOU on October 22, 2010 between PAEPI and STIE Perbanas Surabaya Indonesia for a joint hosting and organizing an international conference in February 2012

Res. No. 16 Series 2010	RESOLVED that PAEPI conducts an international training and conference with the theme " <i>PAEPI International Linkage: Onwards to Globalization in Extension thru sharing of research-based extension services program implementation</i> " in February 2012 and the preparation starts as early as 2011.
Res. No. 17 Series 2010	RESOLVED that the highlight of this training or conference shall be the anticipated shared country experiences on extension by selected country implementers / presenters with a chance to interact with foreign counterparts and linked with them based on their respective institutional interest and concerns made possible thru PAEPI

Finally, for the nomination of succeeding BODs/Officers, a resolution is proposed:

Res. No. 18 Series 2010	RESOLVED that the inherent characteristic needed for a PAEPI to be nominated as a BOD in the region, he or she must have a rank of a Director/VP head of the Extension Office and is willing to sign the PAEPI Statement of Commitment for approval of the head institution.
-----------------------------------	--

It is envisioned that PAEPI through its newly elected PAEPI BOD/officers 2010-2012, would continue the PAEPI legacy and pave the way to :

1. **Publish a PAEPI Extension Referred Journal AY 2010-2012**
(scholarly papers on best extension practices by PAEPI members)
In partnership with research associations both local (PAIR, PhilARM and NRCP) and international (SEAAIR and STIE Perbanas, Surabaya Indonesia) to be accredited by CHED
2. **Go International in partnership with STIE Perbanas Surabaya Indonesia in 2012**
An opportunity for its members to present and share their best practices with their foreign counterparts in the ASIAN region.
3. **Continue with this PAEPI Biennial Publication cum Souvenir program** to update members with its initiatives hence encourage participation and support of all concerned

It was a struggling and challenging journey from **January 2009 – December 2010**, and certainly more struggles and challenges are still at hand along the way with massive tasks. Nevertheless, the first concrete major steps have been made and we get satisfaction with the thought that having been given the vote of confidence and trust by the PAEPI memberships in 2008 October during the *1st PAEPI Biennial Convention and 18th General Assembly*, the PAEPI BOD/officers/team have done its very best to continue the legacy of what our predecessors have begun (1999-2008) and the rest is history.

As PAEPI is the leading professional association of extensionists, PAEPI member – institutions and individuals are encouraged to continuously support PAEPI and participate in implementing the PAEPI paradigm with passionate commitment to PAEPI VMGO (vision, mission, goals and objectives). In line with our 2010 theme "*Implementation of Research-based Extension Programs Towards Attainment of MDGS*" it is believed that using research as a tool in the preparation of extension services programs would result to a more objective and professional implementation of extension programs in the accomplishment of the MDGs.

This exercise is an innovative trend for PAEPI to go international and be at par with global standards!

TO ALL PAEPIANS, together let us put our acts together to elevate extension programs in the country in support to CHED and other partner agencies who share the same concern and interest through our renewed passion in extension, research works, services and commitment After all, as responsible extension workers with a heart and agents of change, we human beings are God's instruments for a better and progressive nation!
