ANAMESP VISION:

To advance the art, science and practice of the design, construction, operation, repairs and maintenance of marine vessels, structures, machinery and related fields, encouraging the exchange and recording of information, and supporting education and enhancing the status and integrity of its membership.

ANAMESP MISSION:

- To facilitate the exchange of information and ideas among its members and disseminate the results of research, experience, and information.
- To advance education in Naval Architecture and Marine Engineering.

ALLIANCE OF NAVAL ARCHITECTURE AND MARINE
ENGINEERING STUDENTS OF THE PHILIPPINES
A SPECIAL AFFILIATE OF THE SOCIETY OF NAVAL ARCHITECTS AND MARINE ENGINEERS INC.

27 December 2016

VADM Eduardo Ma R Santos AFP (Ret)
Chairman
IMarEst – Manila Branch

Thru: **Dr. Angelica Baylon**
Secretary
IMarEst – Manila Branch

Dear **VADM Santos**:

Greetings of peace and prosperity!

The Alliance of Naval Architecture and Marine Engineering Students of the Philippines (ANAMESP), a nationwide student body organization will be holding an event dubbed as **"2nd ANAMESP National Convention"** bearing the theme *"Progress on Shipbuilding"* to be held on **January 5-8, 2017** at Golden Peak Hotel and Suites, Cebu City to be participated by approximately 200 Naval Architecture and Marine Engineering Students from all around the Philippines.

This event aims to provide a forum for students to come together to interact, share ideas, and participate in resolving the current issues and concerns on the maritime industry particularly the shipbuilding sector. We hope to galvanize the collective passion of our naval architecture students in the industry as this is the key to students' academic, emotional and social success.

In this regard, we would like to invite you to sponsor us of the said momentous event by sending us a resource speaker to give us a maximum of 20 minute discussion to any of the topic below:

- International regulations:** IMO, IACS, SOLAS. Environment: Protection against pollution «MARPOL». Risk assessment: pollution by hydrocarbons, impact on ship design.
- Initiation to Research & Development** - Initiation to research: Complementary numerical and experimental approaches, State of the art in ship performance assessment, Organization of international collaborative research, etc, Preparation to the Final Project: Methodology, objectives, assessment and evaluation, bibliographical research methodology, initiation of the state of art for the project.

Should you accept our humble request, we invite the speaker to be at the **Golden Peak Hotel and Suites, Cebu City** at **8:30 am** for the opening program on the **7th day of January 2017**. In return, we offer the following that you would get as one of our benefactor:

- 1 night Hotel Accommodation (to be arranged with the undersigned)
- Privilege to display company streamer or tarpaulin at the event venue
- Online Exposure – company name / logo will be posted on social networking accounts
- Company name and logo will be included in all marketing collaterals like Event Tarpaulins and Publications.

Furthermore, we would also like request from your good office to send us a **“message of support”** affixed with your photo, signature & your organization’s letterhead in a pdf form so that we could include this together with the messages from the different maritime personalities in a souvenir program.

Last 2012, we visited your good institution at MAAP as part of the 1st ANAMESP convention. We appreciate your great welcome to our group and hope that next year you could join us to this wonderful event.

Your benevolent support of our organization will be of great help for the success of this project and the future initiatives towards global competitiveness of Naval Architecture in the maritime industry. For more inquiries, you may contact the undersigned at **+63 999 759 8239** or email at **kelvs49@gmail.com**. Thank you very much. We are hoping for your positive response. Your approval is greatly appreciated.

Sincerely yours,

Mika Ramos
Ms. **Mika Ramos**

ANAMESP President (S.Y. 2016-2017)
